

The postwar years were a golden age of political cartooning in Canada. In this collection some of the best cartoonists in the country present an inclusive view of Canadian history from the Gouzenko affair and the early years of the Cold War to the patriation of the Constitution and the adoption of the Charter of Rights and Freedoms. Along the way they deal with such matters as aboriginal affairs, feminism, human rights, labour, multiculturalism, nationalism, regionalism and separatism, and with the ever-present challenge of dealing with Uncle Sam.
